

To all residents of Kyoto Prefecture

Hello, everyone. I am NISHIWAKI Takatoshi, the governor of Kyoto Prefecture.

Stronger COVID-19 measures are currently being implemented throughout Kyoto Prefecture.

If we allow the spread of infections as they are, it will result in a huge impact on our medical cares and social functions.

In order to overcome this situation, each one of us needs to act sensibly to avoid and prevent infection.

It will be a burden to all the residents and businesses, but I sincerely ask for your cooperation.
