

## To all residents of Kyoto Prefecture

We would like to thank the residents and businesses owners of Kyoto Prefecture for your cooperation in preventing the spread of infection during these difficult times. However, the pandemic is still ongoing and we all must stay alert.

Kyoto Prefecture will continue to do its utmost to secure the ongoing functionality of the medical care provision system, promote vaccinations, and the like.

We ask that residents who wish to receive the vaccine should make arrangements to do so swiftly. Further, we ask that you keep in mind the three key points of “avoiding getting infected yourself”, “avoiding infecting others”, and “avoiding spreading the infection”.

With the season for many opportunities for public gatherings rapidly approaching, we ask that you please avoid the risk of infection by thoroughly implementing basic infection prevention measures.

March 18th, 2022

NISHIWAKI Takatoshi  
Governor of Kyoto Prefecture
